**NBP1-50705****Hemopexin Antibody**

| <b>Product Information</b> |                                          |
|----------------------------|------------------------------------------|
| <b>Unit Size</b>           | 0.2 mg                                   |
| <b>Concentration</b>       | 0.5 mg/ml                                |
| <b>Storage</b>             | Store at -20C. Avoid freeze-thaw cycles. |
| <b>Clonality</b>           | Polyclonal                               |
| <b>Preservative</b>        | 0.01% Thimerosal                         |
| <b>Isotype</b>             | IgG                                      |
| <b>Purity</b>              | Immunogen affinity purified              |
| <b>Buffer</b>              | PBS (pH 7.2), 0.5% BSA and 30% Glycerol  |

| <b>Product Description</b> |                                                                 |
|----------------------------|-----------------------------------------------------------------|
| <b>Host</b>                | Rabbit                                                          |
| <b>Gene ID</b>             | 3263                                                            |
| <b>Gene Symbol</b>         | HPX                                                             |
| <b>Species</b>             | Human, Mouse, Rat                                               |
| <b>Immunogen</b>           | Synthetic peptide surrounding amino acid 436 of mouse Hemopexin |

| <b>Product Application Details</b> |                                                                                                                                                                                                                                                |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Applications</b>                | Western Blot                                                                                                                                                                                                                                   |
| <b>Recommended Dilutions</b>       | Western Blot                                                                                                                                                                                                                                   |
| <b>Application Notes</b>           | Western blotting (0.5-4 ug/ml). However, the optimal conditions should be determined individually. The antibody recognizes ~68 kDa of Hemopexin in samples from human, mouse and rat origins. Reactivity to other species has not been tested. |
