## Lightning-Link (R) Rapid DyLight 755 Antibody Labeling Kit

### 328-0015

Unit Size: 1 mg

Store at -20C.

**328-0015****Lightning-Link (R) Rapid DyLight 755 Antibody Labeling Kit****Product Information**

<b>Unit Size</b>	1 mg
<b>Concentration</b>	Concentration is not relevant for this product. Please see the protocols for proper use of this product.
<b>Storage</b>	Store at -20C.
<b>Conjugate</b>	DyLight 755

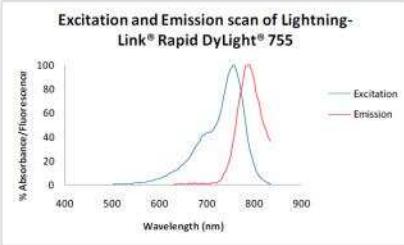

**Product Description**

<b>Description</b>	<p>Lightning-Link Rapid is an innovative technology that enables direct labeling of proteins, peptides or other biomolecules for use in R&amp;D applications, drug discovery and the development of diagnostic kits (See protocol for further information).</p> <p>The easy-to-use, one step procedure allows researchers to covalently label biomolecules with only 30 seconds hands-on time; furthermore conjugates are ready to use in less than twenty minutes.</p> <p>The researcher simply pipettes the biomolecule into a vial of lyophilized mixture containing the label of interest and incubates (for more details please watch the video below).</p> <p><b>Features</b> Quick and easy to use  <b>Benefits</b> Save time, no special knowledge required          No separation steps          100% recovery - no antibody/protein loss          Can be used in a wide range of applications          Flexible          Freeze dried          Ships at ambient temperature, long shelf-life          Fully scalable (10 ug to 1 g or more)          Easy transfer from R&amp;D to manufacturing          Stringently QC tested          Consistent high quality, excellent batch-to-batch reproducibility          Large number of labels available          Experimental flexibility          Reliable: nearly 300 references          Successfully used in many fields of research</p> <p>DyLight 755 provides far red fluorescence for a wide array of fluorescence labeling-based applications. It has a strong absorption at 756nm, high fluorescence at 794nm (extinction coefficient <math>2.2 \times 10^5 \text{ cm}^{-1}\text{M}^{-1}</math>) and high quantum yield.</p> <p>Learn more about Lightning-Link™ Conjugation Kits by reading <a href="#">FAQs</a></p> <p>For more information please check out these useful links!</p> <p><a href="#">Antibody Labeling Guide</a>  <a href="#">Antibody Conjugation Illustrated Assay</a></p>
<b>Kit Components</b>	1 or 3 glass vial(s) of Lightning-Link Rapid mix, 1 vial of LL-Rapid Modifier reagent, 1 vial of LL-Rapid Quencher reagent
<b>Notes</b>	<p>This product is manufactured by Abcam and distributed by Novus Biologicals.</p> <p>This product is for research use only and is not approved for use in humans or in clinical diagnosis. This product is guaranteed for 1 year from date of receipt and this statement overrides any mentioned guarantee period on the limitations section of this products datasheet. Please contact <a href="mailto:technical@novusbio.com">technical@novusbio.com</a> with questions.</p>

**Product Application Details**

**Application Notes**

By circumventing the desalting or dialysis steps that commonly interrupt traditional antibody conjugation procedures, LightningLink technology can be used to label both small (e.g. 10 ug) and large quantities of primary antibodies with ease. Batch-to-batch variation upon scale up is minimal as the process is so simple, and recoveries are always 100%.
