**H00001270-T01****CNTF Overexpression Lysate (Denatured)**

| <b>Product Information</b>         |                                                                                                                                                            |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Unit Size</b>                   | 0.1 ml                                                                                                                                                     |
| <b>Concentration</b>               | The exact concentration of the protein of interest cannot be determined for overexpression lysates. Please contact technical support for more information. |
| <b>Storage</b>                     | Store at -80C. Avoid freeze-thaw cycles.                                                                                                                   |
| <b>Buffer</b>                      | Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, and 0.01% Bromophenol blue).                                                |
| <b>Product Description</b>         |                                                                                                                                                            |
| <b>Description</b>                 | Quality control test: Transient overexpression cell lysate was tested with Anti-CNTF antibody by Western Blots. <b>Plasmid:</b> pCMV-CNTF full-length      |
| <b>Gene ID</b>                     | 1270                                                                                                                                                       |
| <b>Gene Symbol</b>                 | CNTF                                                                                                                                                       |
| <b>Species</b>                     | Human                                                                                                                                                      |
| <b>Notes</b>                       | This product is produced by and distributed for Abnova, a company based in Taiwan.                                                                         |
| <b>Lysate Type</b>                 | Overexpression                                                                                                                                             |
| <b>Lysate Protein State</b>        | Denatured                                                                                                                                                  |
| <b>Product Application Details</b> |                                                                                                                                                            |
| <b>Applications</b>                | Western Blot                                                                                                                                               |
| <b>Recommended Dilutions</b>       | Western Blot                                                                                                                                               |
