## ZNF41 Antibody (1E1) - Azide and BSA Free H00007592-M05

Unit Size: 0.1 mg

Aliquot and store at -20C or -80C. Avoid freeze-thaw cycles.

| Description             | Quality control test: Antibody Reactive Against Recombinant Protein.                                                                                                                                                           |
| Host                    | Mouse                                                                                                                                                                                                                          |
| Gene ID                 | 7592                                                                                                                                                                                                                           |
| Gene Symbol             | ZNF41                                                                                                                                                                                                                          |
| Species                 | Human                                                                                                                                                                                                                          |
| Specificity/Sensitivity | ZNF41 - zinc finger protein 41                                                                                                                                                                                                 |
| Immunogen               | ZNF41 (NP_009061, 221 a.a. ~ 321 a.a) partial recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.<br>GNNFPHSPSSTKNENAKTGANSCEHDHYEKHLSHKQAPTHHQIHPEEKLYVC<br>TECVMGFTQKSHLFEHQRIHAGEKSRECDKSNKVFPQKPQVDVHPSV* |
| Notes                   | This product is produced by and distributed for Abnova, a company based in Taiwan.                                                                                                                                             |

| Product Application Details |                                                                                                                            |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------|
| Applications                | Western Blot, ELISA                                                                                                        |
| Recommended Dilutions       | Western Blot, ELISA                                                                                                        |
| Application Notes           | Antibody reactivity against Recombinant Protein with GST tag on ELISA and WB. GST tag alone is used as a negative control. |

**Images**

Western Blot: ZNF41 Antibody (1E1) [H00007592-M05] - Analysis of ZNF41 expression in transfected 293T cell line by ZNF41 monoclonal antibody (M05), clone 1E1. Lane 1: ZNF41 transfected lysate (Predicted MW: 89.1 KDa). Lane 2: Non-transfected lysate.
