| <b>Notes</b>                   | This product is produced by and distributed for Abnova, a company based in Taiwan.                                                                                                                                                                                                                                                                                                                                                          |

| <b>Product Application Details</b> |                                                                                                                                                                 |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Applications</b>                | Western Blot                                                                                                                                                    |
| <b>Recommended Dilutions</b>       | Western Blot                                                                                                                                                    |
| <b>Application Notes</b>           | Antibody reactivity against Recombinant Protein with GST tag on ELISA and WB and also on transfected lysate in WB. GST tag alone is used as a negative control. |

## Images

Western Blot: CDC123 Antibody [H00008872-D01P] - Analysis of CDC123 expression in MCF-7.

Western Blot: CDC123 Antibody [H00008872-D01P] - Analysis of CDC123 expression in transfected 293T cell line by CDC123 polyclonal antibody. Lane 1: CDC123 transfected lysate(39.10 KDa). Lane 2: Non-transfected lysate.
