## SNAPC5 Antibody (6G10) - Azide and BSA Free H00010302-M07

Unit Size: 0.1 mg

Aliquot and store at -20C or -80C. Avoid freeze-thaw cycles.

| Species                     | Human                                                                                                                                                                                                               |
| Reactivity Notes            | Human. Other species not tested.                                                                                                                                                                                    |
| Specificity/Sensitivity     | SNAPC5 - small nuclear RNA activating complex, polypeptide 5, 19kDa                                                                                                                                                 |
| Immunogen                   | SNAPC5 (AAH14315, 1 a.a. ~ 68 a.a) full-length recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.<br>MLSRLQELRKEEETLLRLKAALHDQLNRLKMLVHVDNEASINQTTLELSTKSHV<br>TEEEEEEEEEESDS                     |
| Notes                       | This product is produced by and distributed for Abnova, a company based in Taiwan.                                                                                                                                  |
| Product Application Details |                                                                                                                                                                                                                     |
| Applications                | Western Blot, ELISA, Sandwich ELISA                                                                                                                                                                                 |
| Recommended Dilutions       | Western Blot 1:500, ELISA, Sandwich ELISA                                                                                                                                                                           |
| Application Notes           | Antibody reactive against cell lysate and recombinant protein for western blot. It has also been used for ELISA.                                                                                                    |

## Images

Western Blot: SNAPC5 Antibody (6G10) [H00010302-M07] - Analysis of SNAPC5 expression in HL-60 (Cat # L014V1).

Western Blot: SNAPC5 Antibody (6G10) [H00010302-M07] - Analysis of SNAPC5 expression in transfected 293T cell line by SNAPC5 monoclonal antibody (M07), clone 6G10. Lane 1: SNAPC5 transfected lysate (8 KDa). Lane 2: Non-transfected lysate.

Sandwich ELISA: SNAPC5 Antibody (6G10) [H00010302-M07] - Detection limit for recombinant GST tagged SNAPC5 is approximately 0.1ng/ml as a capture antibody.
