## Ly-6G5B 293T Cell Transient Overexpression Lysate H00058496-T01

Unit Size: 0.1 ml

Store at -80C. Avoid freeze-thaw cycles.

**H00058496-T01****Ly-6G5B 293T Cell Transient Overexpression Lysate**

| <b>Product Information</b> |                                                                                                           |
|----------------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Unit Size</b>           | 0.1 ml                                                                                                    |
| <b>Concentration</b>       | Please contact technical services for concentration.                                                      |
| <b>Storage</b>             | Store at -80C. Avoid freeze-thaw cycles.                                                                  |
| <b>Buffer</b>              | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |

| <b>Product Description</b>     |                                                                                                                                                           |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>             | Quality control test: Transient overexpression cell lysate was tested with Anti-LY6G5B antibody by Western Blots. <b>Plasmid:</b> pCMV-LY6G5B full-length |
| <b>Gene ID</b>                 | 58496                                                                                                                                                     |
| <b>Gene Symbol</b>             | LY6G5B                                                                                                                                                    |
| <b>Species</b>                 | Human                                                                                                                                                     |
| <b>Specificity/Sensitivity</b> | Ly-6G5B 293T Cell Transient Overexpression Lysate(Denatured)                                                                                              |
| <b>Notes</b>                   | This product is produced by and distributed for Abnova, a company based in Taiwan.                                                                        |
| <b>Lysate Type</b>             | 293T Cell Transient Overexpression                                                                                                                        |
| <b>Lysate Protein State</b>    | Denatured                                                                                                                                                 |

| <b>Product Application Details</b> |              |
|------------------------------------|--------------|
| <b>Applications</b>                | Western Blot |
| <b>Recommended Dilutions</b>       | Western Blot |
