| Description                 | Novus Biologicals Mouse UBXD5 Antibody (1B10) - Azide and BSA Free (H00091544-M01) is a monoclonal antibody validated for use in WB, ELISA and ICC/IF. All Novus Biologicals antibodies are covered by our 100% guarantee.     |
| Host                        | Mouse                                                                                                                                                                                                                          |
| Gene ID                     | 91544                                                                                                                                                                                                                          |
| Gene Symbol                 | UBXN11                                                                                                                                                                                                                         |
| Species                     | Human                                                                                                                                                                                                                          |
| Specificity/Sensitivity     | This product is specific for Human UBXN11 monoclonal antibody (M01), clone 1B10 [Gene ID: 91544].                                                                                                                              |
| Immunogen                   | UBXN11 (NP_663320.1, 311 a.a. ~ 409 a.a) partial recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.<br>QGEVIDIRGPIRDTLQNCCLPARIQEIVVETPTLAAERERSQESPNTAPPLSM<br>LRIKSENGEQAFLLMMQPDNTIGDVRALLAQARVMDASAFEIFS |
| Notes                       | This product is produced by and distributed for Abnova, a company based in Taiwan.                                                                                                                                             |
| Product Application Details |                                                                                                                                                                                                                                |
| Applications                | Western Blot, ELISA, Immunocytochemistry/ Immunofluorescence, Sandwich ELISA                                                                                                                                                   |
| Recommended Dilutions       | Western Blot, ELISA, Immunocytochemistry/ Immunofluorescence, Sandwich ELISA                                                                                                                                                   |
| Application Notes           | Mouse monoclonal antibody raised against a partial recombinant UBXN11.                                                                                                                                                         |

## Images

Immunocytochemistry/Immunofluorescence: UBXD5 Antibody (1B10) [H00091544-M01] - Analysis of monoclonal antibody to UBXN11 on HeLa cell . Antibody concentration 10 ug/ml.

Sandwich ELISA: UBXD5 Antibody (1B10) [H00091544-M01] - Detection limit for recombinant GST tagged UBXN11 is 0.1 ng/ml as a capture antibody.
