## ENPP-7/Alk-SMase 293T Cell Transient Overexpression Lysate H00339221-T01

Unit Size: 0.1 ml

Store at -80C. Avoid freeze-thaw cycles.

|----------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Unit Size</b>     | 0.1 ml                                                                                                    |
| <b>Concentration</b> | mg/ml                                                                                                     |
| <b>Storage</b>       | Store at -80C. Avoid freeze-thaw cycles.                                                                  |
| <b>Buffer</b>        | 1X Sample Buffer (50 mM Tris-HCl, 2% SDS, 10% glycerol, 300 mM 2-mercaptoethanol, 0.01% Bromophenol blue) |

**Product Description**

|                                |                                                                                                                                                         |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>             | Quality control test: Transient overexpression cell lysate was tested with Anti-ENPP7 antibody by Western Blots. <b>Plasmid:</b> pCMV-ENPP7 full-length |
| <b>Gene ID</b>                 | 339221                                                                                                                                                  |
| <b>Gene Symbol</b>             | ENPP7                                                                                                                                                   |
| <b>Species</b>                 | Human                                                                                                                                                   |
| <b>Specificity/Sensitivity</b> | ENPP-7/Alk-SMase 293T Cell Transient Overexpression Lysate(Denatured)                                                                                   |
| <b>Notes</b>                   | This product is produced by and distributed for Abnova, a company based in Taiwan.                                                                      |
| <b>Lysate Type</b>             | 293T Cell Transient Overexpression                                                                                                                      |
| <b>Lysate Protein State</b>    | Denatured                                                                                                                                               |

**Product Application Details**

|                              |              |
|------------------------------|--------------|
| <b>Applications</b>          | Western Blot |
| <b>Recommended Dilutions</b> | Western Blot |
