Recommended Dilutions	Western Blot, Flow Cytometry, Immunocytochemistry/Immunofluorescence, Immunoprecipitation
Application Notes	<p>This HIF-3 alpha antibody is useful for Immunoprecipitation, Western Blot and Immunocytochemistry/Immunofluorescence. In Western Blot analysis, a band is recognized at ~68 kDa representing HIF-3 alpha. Because a band at ~71 kDa is also seen in hypoxic samples, it is important to run a negative control lysate as well (see image). In ICC/IF, cytoplasmic and nuclear staining was observed in HeLa cells, which is consistent with the literature under normoxic conditions for HIF-3 alpha (PMID: 16775626).</p> <p>The observed molecular weight of the protein may vary from the listed predicted molecular weight due to post translational modifications, post translation cleavages, relative charges, and other experimental factors.</p>
