NB300-206**HIP1 Related Antibody (1E1)**

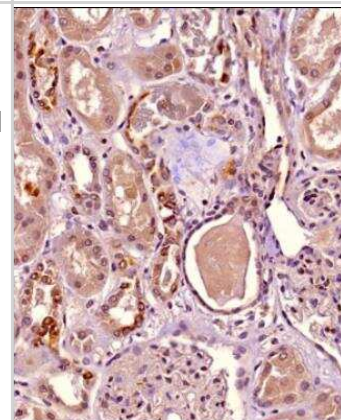

Product Information	
Unit Size	0.1 ml
Concentration	This product is unpurified. The exact concentration of antibody is not quantifiable.
Storage	Aliquot and store at -20C or -80C. Avoid freeze-thaw cycles.
Clonality	Monoclonal
Clone	1E1
Preservative	0.1% Sodium Azide
Isotype	IgG1 Kappa
Purity	Unpurified
Buffer	Ascites
Target Molecular Weight	120 kDa
Product Description	
Host	Mouse
Gene ID	9026
Gene Symbol	HIP1R
Species	Human, Mouse, Rat, Bacteria
Immunogen	Human HIP1 Related-TALIN Homology Region (57 kDa). [UniProt# O75146]
Product Application Details	
Applications	Western Blot, Immunohistochemistry, Immunohistochemistry-Paraffin, Immunoprecipitation
Recommended Dilutions	Western Blot 1:1000, Immunohistochemistry reported in scientific literature, Immunoprecipitation reported in scientific literature, Immunohistochemistry-Paraffin
Application Notes	In Western blot, a band is observed at ~120 kDa representing HIP1 Related protein. One lower molecular weight band 80 kDa may also be observed. The observed molecular weight of the protein may vary from the listed predicted molecular weight due to post translational modifications, post translation cleavages, relative charges, and other experimental factors.

Images

Western Blot: HIP1 Related Antibody (1E1) [NB300-206] - Analysis of HIP1 Related on HeLa whole cell extract.

Immunohistochemistry-Paraffin: HIP1 Related Antibody (1E1) [NB300-206] - Analysis of a FFPE tissue section of human kidney using 1:200 concentration of HIP1 Related antibody. The staining was developed using HRP labeled anti-rabbit secondary antibody and DAB reagent, and nuclei of cells were counter-stained with hematoxylin. This HIP1 related antibody generated strong staining of the cytoplasm and membrane.
