NB300-821**Karyopherin (importin) beta 3 Antibody**

| Product Information | |
|----------------------------|--------------------------------------------------------------|
| Unit Size | 0.1 mg |
| Concentration | 0.5 mg/ml |
| Storage | Aliquot and store at -20C or -80C. Avoid freeze-thaw cycles. |
| Clonality | Polyclonal |
| Preservative | 0.02% Sodium Azide |
| Isotype | IgG |
| Purity | Immunogen affinity purified |
| Buffer | Tris (pH 7.3), 0.5% BSA |

| Product Description | |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host | Goat |
| Gene ID | 3843 |
| Gene Symbol | IPO5 |
| Species | Human |
| Reactivity Notes | Human |
| Immunogen | Synthetic peptide PEDQVGKLEATEN-C, representing the N-Terminus of the human protein according to NP_002262. |
| Notes | Please note, this antibody is considered Innovators Grade. Innovators Grade antibodies are generally unvalidated and require additional characterization for most new species/applications. Novus has made these antibodies available through our Innovators Reward program. Complete an online review with image, detailing your positive or negative results. In return, you receive a discount voucher for 100% of the purchase price of the reviewed product. Please contact us at innovators@novusbio.com for more details. |

| Product Application Details | |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Applications | Peptide ELISA |
| Recommended Dilutions | Peptide ELISA detection limit 1:4000 |
| Application Notes | Peptide ELISA: antibody detection limit dilution 1:4000. Western Blot: Preliminary experiments gave no signal but low background in Human Testis lysates at up to 1ug/ml. We would appreciate any feedback from people in the field - have any results been reported with other antibodies/lysates? |
