## NBP1-05029

CCL11/Eotaxin Antibody

Product Information	
0.1 mg	
0.5 mg/ml	
Store at -20C. Avoid freeze-thaw cycles.	
Polyclonal	
0.02% Sodium Azide	
lgG	
Immunogen affinity purified	
Tris saline (20 mM Tris pH 7.3, 150 mM NaCl), 0.5% BSA	
Product Description	
Goat	
6356	
CCL11	
Human	
Peptide with sequence C-QDSMKYLDQKSPTPK corresponding to C-Terminus according to NP_002977.1.	
Please note, this antibody is considered Innovators Grade. Innovators Grade antibodies are generally unvalidated and require additional characterization for most new species/applications. Novus has made these antibodies available through our Innovators Reward program. Complete an online review with image, detailing your positive or negative results. In return, you receive a discount voucher for 100% of the purchase price of the reviewed product. Please contact us at innovators@novusbio.com for more details.	
Peptide ELISA	
Peptide ELISA Detection limit 1:2000	
WB: No specific signals and low background in human colon, duodenum, lleum and lung lysates - our routinely used WB protocol does not allow detection of proteins as small as the ligand derived from its precursor or the orecusor itself with calculated size of 10.7 kDa band according to NP_002977.1. Therefore we cannot recommend an optimal concentration and the product is investigative grade.
