| <b>Clonality</b>                   | Polyclonal                                                                                  |
| <b>Preservative</b>                | 0.05% Sodium Azide                                                                          |
| <b>Isotype</b>                     | IgG                                                                                         |
| <b>Purity</b>                      | Protein A purified                                                                          |
| <b>Buffer</b>                      | PBS containing 0.05% BSA                                                                    |
| <b>Product Description</b>         |                                                                                             |
| <b>Host</b>                        | Rabbit                                                                                      |
| <b>Gene ID</b>                     | 58509                                                                                       |
| <b>Gene Symbol</b>                 | CACTIN                                                                                      |
| <b>Species</b>                     | Human, Porcine, Bovine, Canine, Primate                                                     |
| <b>Reactivity Notes</b>            | Predicted to react with Bacteria, Mosquito, Mouse, Pufferfish, Rat, Wild Turkey, Zebrafish. |
| <b>Immunogen</b>                   | A portion of amino acid 460-510 of human Cactin was used as the immunogen.                  |
| <b>Product Application Details</b> |                                                                                             |
| <b>Applications</b>                | Western Blot, Immunohistochemistry, Immunohistochemistry-Paraffin                           |
| <b>Recommended Dilutions</b>       | Western Blot 5-7 ug/ml, Immunohistochemistry, Immunohistochemistry-Paraffin 5 ug/ml         |

## Images

Western Blot: Cactin Antibody [NBP1-70775] - analysis of Cactin. Lanes 1 and 2 show human heart tissue lysate probed with pre-immune sera (1:5000) and Cactin polyclonal antibody (7 ug/ml), respectively.

Immunohistochemistry-Paraffin: Cactin Antibody [NBP1-70775] - staining of human brain using Cactin polyclonal antibody at 5 ug/ml.
