NBP1-72032**Magnetic Separating Rack**

Product Information	
Unit Size	1 Plate
Concentration	Please see the protocols for proper use of this product. If no protocol is available, contact technical services for assistance.
Storage	Store at room temperature.
Product Description	
Notes	Magnetic Separating Rack for 6 Microcentrifuge Tubes. This product is a plastic holder containing strong, rare-earth magnet ready to use for purification of respective affinity targets.
Product Application Details	
Applications	Chromatin Immunoprecipitation
Recommended Dilutions	Chromatin Immunoprecipitation
Application Notes	NBP1-72032 is a convenient affinity support for a variety of assays, allowing easy benchtop purification without columns or centrifugation. This product allows for collecting magnetic particles in 6 microcentrifuge tube at a time.
