## CDNF Antibody Blocking Peptide

### NBP1-76834PEP

Unit Size: 0.05 mg

Store at -20C. Avoid freeze-thaw cycles.

**NBP1-76834PEP****CDNF Antibody Blocking Peptide**

| <b>Product Information</b> |                                                                                                                                                  |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Unit Size</b>           | 0.05 mg                                                                                                                                          |
| <b>Concentration</b>       | 0.2 mg/ml                                                                                                                                        |
| <b>Storage</b>             | Store at -20C. Avoid freeze-thaw cycles.                                                                                                         |
| <b>Preservative</b>        | 0.02% Sodium Azide                                                                                                                               |
| <b>Purity</b>              | N/A                                                                                                                                              |
| <b>Buffer</b>              | PBS pH 7.2 (10 mM NaH <sub>2</sub> PO <sub>4</sub> , 10 mM Na <sub>2</sub> HPO <sub>4</sub> , 130 mM NaCl) containing 0.1% bovine serum albumin. |

| <b>Product Description</b> |                                                                                                                                                                 |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>         | <p>A blocking peptide containing 9 amino acids near the carboxy terminus of human CDNF.</p> <p><b>Source:</b> <i>Synthetic</i></p> <p>(Accession #: Q49AH0)</p> |
| <b>Gene ID</b>             | 441549                                                                                                                                                          |
| <b>Gene Symbol</b>         | CDNF                                                                                                                                                            |
| <b>Species</b>             | Human                                                                                                                                                           |

| <b>Product Application Details</b> |                                                                                                                                          |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Applications</b>                | Antibody Competition                                                                                                                     |
| <b>Recommended Dilutions</b>       | Antibody Competition                                                                                                                     |
| <b>Application Notes</b>           | This peptide is useful as a blocking peptide for NBP1-76834. For further blocking peptide related protocol, click <a href="#">here</a> . |
