Novus SDS-PAGE Prestained Markers

Product Information	
Unit Size	600 ul
Concentration	Please see the protocols for proper use of this product. If no protocol is available, contact technical services for assistance.
Storage	Store at -20C. Avoid freeze-thaw cycles.
Product Description	
Notes	This product is manufactured by Expedeon Inc. and distributed by Novus Biologicals.
Product Application Details	
Applications	Western Blot, SDS-Page
Recommended Dilutions	Western Blot, SDS-Page
Application Notes	<p>Novus SDS Prestained Markers have been specifically formulated for use with Novus SDS-PAGE Precast Gels. Markerproteins are conjugated to dye molecules to show position before staining which allows you to know how far your protein has migrated and to confirm the blotting efficiency without the need to stain your target protein.</p> <p>Novus SDS Prestained Markers consist of 195, 142, 96, 71, 48, 33, 28, 22, 12 and 7.6 kDa standards. For additional convenience and ease of identification, the 71 and 28 kDa standards have been conjugated to an orange dye molecule.</p> <p>A load of only 4ul is sufficient for a high intensity marker ladder - up to 2.5x less loading than conventional ladders!</p>
