## Nucleotide binding protein like Antibody (OTI2C8) NBP2-01348

Unit Size: 0.1 ml

Store at -20C. Avoid freeze-thaw cycles.

| Preservative                | 0.02% Sodium Azide                                                                                                                       |
| Isotype                     | IgG1                                                                                                                                     |
| Purity                      | Immunogen affinity purified                                                                                                              |
| Buffer                      | PBS (pH 7.3), 1.0% BSA and 50% Glycerol                                                                                                  |
| Target Molecular Weight     | 33.9 kDa                                                                                                                                 |
| Product Description         |                                                                                                                                          |
| Host                        | Mouse                                                                                                                                    |
| Gene ID                     | 80224                                                                                                                                    |
| Gene Symbol                 | NUBPL                                                                                                                                    |
| Species                     | Human                                                                                                                                    |
| Reactivity Notes            | Human                                                                                                                                    |
| Immunogen                   | Recombinant protein fragment corresponding to amino acids 1-250 of human Nucleotide binding protein like (NP_079428) produced in E.coli. |
| Product Application Details |                                                                                                                                          |
| Applications                | Western Blot, Flow Cytometry                                                                                                             |
| Recommended Dilutions       | Western Blot 1:2000, Flow Cytometry 1:100                                                                                                |

## Images

Western Blot: Nucleotide binding protein like Antibody (2C8) [NBP2-01348] HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY Nucleotide binding protein like (Right lane) cDNA for 48 hrs and lysed. Equivalent amounts of cell lysates (5 ug per lane) were separated by SDS-PAGE and immunoblotted with anti-Nucleotide binding protein like.

Flow Cytometry: Nucleotide binding protein like Antibody (2C8) [NBP2-01348] - HEK293T cells transfected with either overexpression plasmid (Red) or empty vector control plasmid (Blue) were immunostained by anti-Nucleotide binding protein like antibody, and then analyzed by flow cytometry.
