**P3121****GSK-3 alpha Peptide****Product Information**

|                      |                                                                                                                    |
|----------------------|--------------------------------------------------------------------------------------------------------------------|
| <b>Unit Size</b>     | 100 ug                                                                                                             |
| <b>Concentration</b> | Please see the vial label for concentration. If unlisted please contact technical services.                        |
| <b>Storage</b>       | Store at 4C short term. Aliquot and store at -20C long term. Avoid freeze-thaw cycles.                             |
| <b>Preservative</b>  | No Preservative                                                                                                    |
| <b>Buffer</b>        | Lyophilized with 100% acetonitrile. Reconstitute with 100 uL deionized water for a final concentration of 1 mg/mL. |

**Product Description**

|                         |                                                                                       |
|-------------------------|---------------------------------------------------------------------------------------|
| <b>Gene ID</b>          | 2931                                                                                  |
| <b>Gene Symbol</b>      | GSK3A                                                                                 |
| <b>Species</b>          | Human                                                                                 |
| <b>Reactivity Notes</b> | Human                                                                                 |
| <b>Immunogen</b>        | This protein is not active and should not be used for experiments requiring activity. |
| <b>Notes</b>            | This product is produced by and distributed for Abnova, a company based in Taiwan.    |

**Product Application Details**

|                              |                                                                                                                                                                                                                        |
|------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Applications</b>          | Block/Neutralize                                                                                                                                                                                                       |
| <b>Recommended Dilutions</b> | Block/Neutralize                                                                                                                                                                                                       |
| <b>Application Notes</b>     | This peptide is useful as a blocking peptide for PAB3335. This product may contain endotoxins and is not suitable for use with live cells. For further blocking peptide related protocol, click <a href="#">here</a> . |
