HPi3 Antibody (HIC1-7H10) [Alexa Fluor® 700]

Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned or the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For informatior on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad, CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.Product Application DetailsFlow Cytometry, Immunocytochemistry/ Immunofluorescence, Immunohistochemistry, Immunohistochemistry, Immunocytochemistry/	, , , , ,	1
Concentration This product is unpurified. The exact concentration of antibody is not quantifiable. Store at 4C in the dark. Clonality Clonality Monoclonal Clone HIC1-7H10 Preservative 0.05% Sodium Azide Isotype IgG1 Conjugate Alexa Fluor 700 Purity Tissue culture supernatant Buffer 50mM Sodium Borate Product Description This product is provided as conjugated tissue culture supernatant. Due to the crude preparation of the antibody material, excess dye may remain in the final product. We highly recommend taking necessary precautions, such as adding additional wash steps and running proper controls. Host Mouse Specificity/Sensitivity Specific for multiple endocrine cell types. Immunogen Human parcreatic enriched islet cells containing low levels of exocrine and ductal cells. Notes Alexa Fluor (R) product are provided under an intellectual property license from cultified Technologies Corporation. The purchased fits product conveys to the buyer the non-transferable right to use the purchased fits product componets, in any activity to generate revenue, which may include, but is not limited to use of the product or its components. (i) in manufacturing: (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, digenostic or prophylactic purposes; (iv) for resale, regar	Product Information
