#### NBP1-80831PEP

Enah/Vasp-like Recombinant Protein Antigen

Product Information       Unit Size       0.1 ml         Concentration       Please see the vial label for concentration. If unlisted please contact technical services.         Storage       Store at -20C. Avoid freeze-thaw cycles.         Preservative       No Preservative         Purity       >80% by SDS-PACE and Coomassie blue staining         Buffer       PBS and 1M Urea, pH 7.4.         Target Molecular Weight       26 kDa         Product Description       A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human EVL.         Source: <i>E. coli</i> Anino Acid Sequence: SOROVONGPSPDEMDIQRROVMEGHOQOQRQESLERRTSATGPILPPGHPS SAASAPVSCSGPPPPPPPVPPPPTGATPPP         Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)       This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial production is strictly prohibited. Please contact technical support if you have any questions.         Gene ID       51466         Gene Symbol       EVL         Species       Human         Product Application Details       Antibody Competition Notes         Application Notes       Antibody Competition 10 - 100 molar excess         Application Notes       For current to information, including availability, please contact our technical support team click nb-technical@bio-
