Glycoprotein V/CD42d Antibody (1C2) [Alexa Fluor® 647]

contact technical services. Storage Store at 4C in the dark. Clonality Monoclonal Clone 1C2 Preservative 0.05% Sodium Azide Isotype IgG Conjugate Alexa Fluor 647 Purity Protein A or G purified Buffer 50mM Sodium Borate Product Description Host Armenian Hamster Gene ID 2814 Gene Symbol GP5 Species Mouse, Rat Immunogen The immunogen for this antibody is CD42d (platelet glycoprotein V). Notes Alexa Fluor (R) products are provided under an intellectual property license fr Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and componen of the product only in research conducted by the buyer (whether the buyer is a academic or for-profit entity). The sale of this product conveys to the buyer not using the product or its components, or any materials made using t	Glycoprotein V/CD42d Antibody (1C2) [Alexa Fluor® 647]		
Concentration Concentrations vary lot to lot. See vial label for concentration. If unlisted pleas contact technical services. Storage Stora 4 C in the dark. Clonality Monoclonal Clone 1C2 Preservative 0.05% Sodium Azide Isotype IgG Conjugate Alexa Fluor 647 Purity Protein A or G purified Buffer 50mM Sodium Borate Product Description Host Armenian Hamster Gene ID 2814 Gene Symbol GPS Species Mouse, Rat Immunogen The immunogen for this antibody is CD42d (platelet glycoprotein V). Notes Alexa Fluor (R) products are provided under an intellectual property license fre Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and componen of the product only in research conducted by the buyer (whether the buyer is academic or for-profit entity). The sale of this product is expressly conditioned the buyer not using the product or its components, or any materials made using the product or its components. (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van in research. For information on purchasing a license to this product for purposes other than as described advanced and the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.	Product Information		
contact technical services. Storage Store at 4C in the dark. Clonal Clone 1C2 Preservative 0.05% Sodium Azide Isotype IgG Conjugate Alexa Fluor 647 Purity Protein A or G purified Buffer 50mM Sodium Borate Product Description Host Armenian Hamster Gene ID 2814 Gene Symbol GP5 Species Mouse, Rat Immunogen The immunogen for this antibody is CD42d (platelet glycoprotein V). This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.	Product Description		
Gene Symbol Species Mouse, Rat Immunogen The immunogen for this antibody is CD42d (platelet glycoprotein V). Notes Alexa Fluor (R) products are provided under an intellectual property license free Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and component of the product only in research conducted by the buyer (whether the buyer is a academic or for-profit entity). The sale of this product is expressly conditioned the buyer not using the product or its components, or any materials made using the product or its components, or any materials made using the product or its components; (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophyladric purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbact CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet. Product Application Details	Host	Armenian Hamster	
Species Mouse, Rat The immunogen for this antibody is CD42d (platelet glycoprotein V). Notes Alexa Fluor (R) products are provided under an intellectual property license fr Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and component of the product only in research conducted by the buyer (whether the buyer is academic or for-profit entity). The sale of this product is expressly conditioned the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbac CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet. Product Application Details	Gene ID	2814	
Immunogen The immunogen for this antibody is CD42d (platelet glycoprotein V). Alexa Fluor (R) products are provided under an intellectual property license fr Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and component of the product only in research conducted by the buyer (whether the buyer is a academic or for-profit entity). The sale of this product is expressly conditioned the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbac CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet. Product Application Details	Gene Symbol	GP5	
Alexa Fluor (R) products are provided under an intellectual property license fr Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and component of the product only in research conducted by the buyer (whether the buyer is a academic or for-profit entity). The sale of this product is expressly conditioned the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbact CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet. Product Application Details	Species	Mouse, Rat	
Alexa Fluor (R) products are provided under an intellectual property license fr Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and component of the product only in research conducted by the buyer (whether the buyer is a academic or for-profit entity). The sale of this product is expressly conditioned the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsback CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet. Product Application Details	Immunogen	The immunogen for this antibody is CD42d (platelet glycoprotein V).	
	Notes	buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity).
