

Product Datasheet

BST2 Antibody (2E2) - BSA Free

NBP2-29621

Unit Size: 0.1 mg

Store at 4C short term. Aliquot and store at -20C long term. Avoid freeze-thaw cycles.

NBP2-29621

BST2 Antibody (2E2) - BSA Free

Product Information	
Unit Size	0.1 mg
Concentration	1.0 mg/ml
Storage	Store at 4C short term. Aliquot and store at -20C long term. Avoid freeze-thaw cycles.
Clonality	Monoclonal
Clone	2E2
Preservative	0.05% Sodium Azide
Isotype	IgG1 Kappa
Purity	Protein A or G purified
Buffer	PBS
Product Description	
Host	Mouse
Gene ID	684
Gene Symbol	BST2
Species	Human
Immunogen	Full length recombinant human BST2 protein [NCBI NP_004326]
Product Application Details	
Applications	Western Blot, Flow Cytometry, Immunohistochemistry, Immunohistochemistry-Paraffin, CyTOF-ready
Recommended Dilutions	Western Blot 1 ug/ml, Flow Cytometry 0.5 ug/ml, Immunohistochemistry 5 ug/ml, Immunohistochemistry-Paraffin 5 ug/ml, CyTOF-ready
Application Notes	The unprocessed form of BST2 protein is 180 amino acids long (161 amino acids in its cleaved BST) and its cleaved form undergoes further modifications namely disulfide bond formation, GPI-anchor/GPI-like-anchor binding, glycosylation, isopeptide bond formation, lipidation and Ubl conjugation. The predicted molecular weight of unmodified BST2 protein is ~17-18kDa, whereas the post-translationally modified protein has been documented to run at ~25-36kDa (glycosylated), 50-55 kDa (ubiquitinated) and 65-70 kDa (dimers) in WB assay. BST2 protein localize mainly to the cell membranes from where it shuttles to the trans-Golgi network, late endosome and the cytoplasm. In immuno-staining assays, BST2 may develop a membrane-cytoplasmic staining pattern. This antibody is CyTOF ready.

Images

Western Blot: BST2 Antibody (2E2) [NBP2-29621] - Analysis of BST2 protein in (A) human heart lysate, (B) human ovary lysate and (C) partial recombinant BST2 protein with monoclonal BST2 antibody at a concentration of 1 ug/ml. In the tested human lysates, two distinct bands were observed which represents the glycosylated (lower bands) and the ubiquitinated (higher bands) forms of BST2 protein.

Immunohistochemistry-Paraffin: BST2 Antibody (2E2) [NBP2-29621] - Analysis of BST2 protein in a section of human endometrial carcinoma using 5 ug/ml concentration of BST2 antibody (clone 2E2). The carcinoma cells depicted distinct membrane-cytoplasmic BST2 positivity with more intense staining in the cellular membranes, whereas, weak staining was observed in tumor stroma.

Immunohistochemistry-Paraffin: BST2 Antibody (2E2) [NBP2-29621] - Analysis of BST2 protein in a section of human renal cell carcinoma (clear cell type) using 5 ug/ml concentration of BST2 antibody (clone 2E2). The carcinoma cells depicted distinct membrane-cytoplasmic BST2 positivity with more intense staining in cellular membranes.

Immunohistochemistry-Paraffin: BST2 Antibody (2E2) [NBP2-29621] - Analysis of BST2 protein in a section of human lung cancer (squamous cell carcinoma) using 5 ug/ml concentration of BST2 antibody (clone 2E2). The carcinoma cells depicted distinct membrane-cytoplasmic BST2 positivity with more intense staining in the cellular membranes, whereas, mild to moderate staining was observed in tumor stroma also.
