| Product Description         |                                                                                                                                                                      |
| Host                        | Rabbit                                                                                                                                                               |
| Gene ID                     | 114786                                                                                                                                                               |
| Gene Symbol                 | XKR4                                                                                                                                                                 |
| Species                     | Human                                                                                                                                                                |
| Reactivity Notes            | Predicted to react with Mouse and Rat.                                                                                                                               |
| Immunogen                   | This XKR4 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 570-598 amino acids from the C-terminal region of human XKR4. |
| Product Application Details |                                                                                                                                                                      |
| Applications                | Western Blot, Immunocytochemistry/Immunofluorescence, Immunohistochemistry, Immunohistochemistry-Paraffin                                                            |
| Recommended Dilutions       | Western Blot 1:1000, Immunohistochemistry, Immunocytochemistry/Immunofluorescence 1:10 - 1:50, Immunohistochemistry-Paraffin 1:10 - 1:50                             |
