NBP2-30110

Cdx1 Antibody

Product Information	
Unit Size	0.1 mg
Concentration	0.1 mg/ml
Storage	Store at 4C short term. Aliquot and store at -20C long term. Avoid freeze-thaw cycles.
Clonality	Polyclonal
Preservative	0.02% Sodium Azide
Isotype	IgG
Purity	Protein G purified
Buffer	PBS
Product Description	
Host	Rabbit
Gene ID	1044
Gene Symbol	CDX1
Species	Human
Immunogen	Amino acids 251-275 of the human caudal type homeo box transcription factor 1 (CDX1) protein.
Product Application Details	
Applications	Peptide ELISA
Recommended Dilutions	Peptide ELISA 1:32000
Application Notes	<p>Researchers have indicated that they want access to novel target antibodies quickly to aid in their research. IMGENEX is pleased to be able to offer researchers access to cutting-edge products that are still in the process of characterization/validation. IMGENEX's 'IMX' antibody line is shown by ELISA to bind to the peptide used as immunogen. Investigators should empirically determine the suitability of the antibody, including optimal dilutions, for other applications of interest. We cannot guarantee that the yet-to-be-fully validated antibody will work in any application other than in an ELISA against the peptide used as immunogen and therefore cannot offer a refund if the antibody does not work in your application. The antibody is offered at a lower price compared to a more highly validated antibody. We are not able to provide the immunogen for the antibodies, but do provide the amino acid sequence. These antibodies are not fully validated and we appreciate your feedback. Customer feedback is used to help generate testing methodologies which can lead to further product validation or withdrawal.</p>
