## RABGAP1L Antibody - BSA Free

### NBP2-31582

Unit Size: 0.1 ml

Store at 4C short term. Aliquot and store at -20C long term. Avoid freeze-thaw cycles.

| Buffer                      | PBS (pH 7.2) and 40% Glycerol                                                                                                                                                                        |
| Product Description         |                                                                                                                                                                                                      |
| Description                 | Novus Biologicals Rabbit RABGAP1L Antibody - BSA Free (NBP2-31582) is a polyclonal antibody validated for use in IHC and ICC/IF. All Novus Biologicals antibodies are covered by our 100% guarantee. |
| Host                        | Rabbit                                                                                                                                                                                               |
| Gene ID                     | 9910                                                                                                                                                                                                 |
| Gene Symbol                 | RABGAP1L                                                                                                                                                                                             |
| Species                     | Human                                                                                                                                                                                                |
| Reactivity Notes            | Immunogen displays the following percentage of sequence identity for non-tested species: Rat (80%)                                                                                                   |
| Immunogen                   | This antibody was developed against a recombinant protein corresponding to amino acids:<br>EVRASLQKVSGSSDSVATMNSEEFVLVPQYADDNSTKHEEKPQLKIVSNGDEQ<br>LE                                               |
| Product Application Details |                                                                                                                                                                                                      |
| Applications                | Immunohistochemistry-Paraffin, Immunocytochemistry/ Immunofluorescence, Immunohistochemistry                                                                                                         |
| Recommended Dilutions       | Immunohistochemistry 1:2500 - 1:5000, Immunocytochemistry/ Immunofluorescence 0.25-2 ug/ml, Immunohistochemistry-Paraffin 1:2500 - 1:5000                                                            |
| Application Notes           | For IHC-Paraffin, HIER pH 6 retrieval is recommended.<br>Immunocytochemistry/Immunofluorescence Fixation Permeabilization: Use PFA/Triton X-100.                                                     |

## Images

Immunocytochemistry/Immunofluorescence: RABGAP1L Antibody [NBP2-31582] - Staining of human cell line U-2 OS shows localization to nucleoli & cytosol. Antibody staining is shown in green.

Immunohistochemistry-Paraffin: RABGAP1L Antibody [NBP2-31582] - Staining of human kidney shows weak cytoplasmic positivity in renal tubules.
