| Clonality                   | Polyclonal                                                                             |
| Preservative                | No Preservative                                                                        |
| Isotype                     | IgG                                                                                    |
| Purity                      | Protein G purified                                                                     |
| Buffer                      | PBS and 0.2% Gelatin                                                                   |
| Product Description         |                                                                                        |
| Host                        | Rabbit                                                                                 |
| Gene ID                     | 57569                                                                                  |
| Gene Symbol                 | ARHGAP20                                                                               |
| Species                     | Human, Primate                                                                         |
| Reactivity Notes            | The amino acid sequence used as immunogen is 83% homologous in Xenopus.                |
| Immunogen                   | A portion of amino acids 570-620 of human ARHGAP20 was used as the immunogen.          |
| Product Application Details |                                                                                        |
| Applications                | Western Blot, Immunohistochemistry-Paraffin, Immunohistochemistry                      |
| Recommended Dilutions       | Western Blot 5-8 ug/ml, Immunohistochemistry, Immunohistochemistry-Paraffin 4-8 ug/ml  |

## Images

Western Blot: ARHGAP20 Antibody - Azide Free [NBP2-33261] - Analysis of ARHGAP20 in rat brain lysate. Lane 1 shows pre-immune sera. Lane 2 shows NBP2-24757 tested at 8 ug/ml. Image from the standard format of this antibody.

Immunohistochemistry: ARHGAP20 Antibody - Azide Free [NBP2-33261] - IHC staining of mouse brain using control (rabbit Ig) at 5 ug/ml. Image from the standard format of this antibody.
