2000-0100**Protein A - HRP Protein**

Product Information	
Unit Size	0.1 mg
Concentration	Please see the vial label for concentration. If unlisted please contact technical services.
Storage	Store at -20 °C.
Product Description	
Description	<p>Protein A is a 42kDa surface protein of the bacterium <i>Staphylococcus aureus</i>, which binds the Fc region of many mammalian IgGs. Its high affinity for immunoglobulins is the reason that it is often used in biochemical research. Horseradish Peroxidase (HRP) is a metallo-enzyme which has many different isoforms. It utilizes hydrogen peroxide to oxidize both organic and inorganic compounds, and in the presence of the appropriate substrate (e.g. TMB, DAB, ABTS) causes a color change that can be measured spectrophotometrically.</p> <p>Our Protein A conjugates are produced using our Lightning-Link bio-conjugation technology, therefore providing high quality, stable covalent conjugates for use in your application.</p>
Notes	This product is manufactured by Expedeon Inc. and distributed by Novus Biologicals.
