Immunohistochemistry: CTP synthase Antibody [23370002] - Moderate to strong cytoplasmic immunoreactivity, occasionally combined with nuclear positivity, was observed in normal and malignant tissues. Most glandular epithelia, cells of the central nervous system and renal tubuli displayed strong cytoplasmic staining. Most cases of colo-rectal, prostate and breast cancers showed strong cytoplasmic expression. Image and statement courtesy of the Human Protein Atlas (HPA).

ELISA: CTP synthase Antibody [23370002]

ELISA:

The affinity purified antibody was serially diluted onto an ELISA plate coated with a recombinant protein fragment.
