265-1006**8-Tube Magnetic Stand**

Product Information	
Unit Size	1 Each
Concentration	Please see the protocols for proper use of this product. If no protocol is available, contact technical services for assistance.
Storage	Store at room temperature.
Product Description	
Description	<p>The AbPure Magnetic Purification System is a convenient method to purify antibodies at a small scale with high recoveries. It quickly removes substances often contained in commercially available antibodies (e.g. BSA and other proteins, glycine, tris, and azide) that interfere with conjugation reactions. It can be easily adapted to your needs allowing you to purify from 20 to 200ug of antibody and to reach the desired final antibody concentration. The antibody to be purified or cleaned up should ideally be in a volume of 20ul to 1ml.</p> <p>The AbPure Magnetic Purification System has been designed to be compatible with our Lightning-Link, Thunder-Link PLUS, InnovaCoat GOLD and LATEX conjugation kits (available separately), which allow the purified antibody to be conjugated rapidly.</p>
Notes	This product is manufactured by Expedeon Inc. and distributed by Novus Biologicals.
Product Application Details	
Application Notes	This product complements the AbPure Magnetic Purification System (265-0200)
