FC005-NOV**Flow Cytometry Permeabilization/Wash Buffer I (1X)**

Product Information	
Unit Size	250 ml
Concentration	Please see the protocols for proper use of this product. If no protocol is available, contact technical services for assistance.
Storage	Store at 4C. Do not freeze.
Product Description	
Description	Flow Cytometry Permeabilization/Wash Buffer I is formulated and optimized for permeabilization of single-cell suspensions, dilution, and washing of these samples for subsequent intracellular flow cytometry applications. This product is designed for intracellular flow cytometry applications with non-conjugated or fluorochrome-conjugated antibodies. Refer to product specification sheets to obtain the recommended working antibody dilutions. Precaution: This product contains Sodium Azide, which may react with lead and copper plumbing to form explosive metallic azides. Flush with large volumes of water during disposal.
