#### NBP1-87972PEP

DYNC1LI1 Recombinant Protein Antigen

Product Information         Unit Size       0.1 ml         Concentration       Please see the viait label for concentration. If unlisted please contact technical services.         Storage       Store at -20C. Avoid freeze-thaw cycles.         Preservative       No Preservative         Purity       >80% by SDS-PAGE and Coomassie blue staining         Buffer       PBS and 1M Urea, pH 7.4.         Target Molecular Weight       23 kDa         Product Description       A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human DYNC1L1.         Source: E. coli       Amino Acid Sequence: AGGGSSQLPPSTKKSQKVLDVHAELDRITRKPVTVSPTTPTSPTEGEAS         Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)       This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial production is strictly prohibited. Please contact technical support if you have any questions.         Gene ID       51143         Gene symbol       DYNC1L11         Species       Human         Product Application Details         Applications       Antibody Competition 10 - 100 molar excess         Application Notes       This recombinant antigen is only intended to be used as a blocking agent to confirm antigony specificity with the corresponding antibody, catalog number NBP1-8/372.		,	
Concentration         Please see the vial label for concentration. If unlisted please contact technical services.           Storage         Store at -20C. Avoid freeze-thaw cycles.           Preservative         No Preservative           Purity         >80% by SDS-PAGE and Coomassie blue staining           Buffer         PES and 1M Urea, pH 7.4.           Target Molecular Weight         23 kDa           Product Description         A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human DYNC1L1.           Source: <i>E. coli</i> Amino Acid Sequence: AGGSSGLPPSTKKSGQKPVLDVHAELDRITRKPVTVSPTTPTSPTEGEAS           Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)         This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial production is strictly prohibited.
