#### NBP1-92142PEP

MS4A13 Recombinant Protein Antigen

Product Information         Unit Size         0.1 ml           Concentration         Please see the vial label for concentration. If unlisted please contact technical services.           Storage         Store at -20C. Avoid freeze-thaw cycles.           Preservative         No Preservative           Purity         >80% by SDS-PAGE and Coomassie blue staining           Buffer         PBS and 1M Urea, pH 7.4.           Target Molecular Weight         21 kDa           Product Description         A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human MS4A13.           Source: <i>E</i> coli           Amino Acid Sequence: LTILELSHFNSVSYRNYGOAKLGREVSRI           Fusion Tag:         This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial production is strictly prohibited. Please contact technical support if you have any questions.           Gene ID         503497           Gene BD         503497           Gene Romended Dilutions         Antibody Competition           Recommended Dilutions         Antibody Competition           Application Details         Antibody Competition           Application Notes         This purflet by IMAC chromatography, and the expected concentration is greater than 0.5 mg/ml.
