NBP2-32051PEP

MOBKL1B Recombinant Protein Antigen

Product Information Unit Size 0.1 ml Concentration Please see the vial label for concentration. If unlisted please contact technic services. Storage Store at -20C. Avoid freeze-thaw cycles. Preservative No Preservative Purity >80% by SDS-PAGE and Coomassie blue staining Buffer PBS and 1M Urea, pH 7.4. Target Molecular Weight 21 kDa Product Description A recombinant protein antigen with a N-terminal His6-ABP tag correspondin human MOB1A. Source: E. coli Amino Acid Sequence: FFVQEFNLIDRRELAPLQELIEKLGSKD Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein derived fi Streptococcal Protein G) This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of user. The use of this product for commercial production is strictly prohibited. Please contact technical support if you have any questions

Gene ID 55233	
Gene Symbol MOB1A	
Species Human	
Product Application Details	
Applications Antibody Competition	
Recommended Dilutions Antibody Competition 10 - 100 molar excess	
Application Notes This recombinant antigen is only intended to be used as a blocking agent to	
 confirm antibody specificity with the corresponding antibody, catalog numbe NBP2-32051. It is purified by IMAC chromatography, and the expected concentration is grather than 0.5 mg/ml. For current lot information, including availability, please contact our technical support team click <u>nb-technical@bio-techne.com</u> For further blocking peptide related information and a protocol, click <u>here</u>.
