#### NBP2-38109PEP

BTBD1 Recombinant Protein Antigen

human BTBD1.         Source: E. coli         Amino Acid Sequence: SSLGPLLPLQREPLYNWQATKASLKERFAFL         Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)         This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial production is strictly prohibited. Please contact technical support if you have any questions.         Gene ID       53339         Gene Symbol       BTBD1         Species       Human         Product Application Details       Antibody Competition 10 - 100 molar excess         Application Notes       Antibody Specificity with the corresponding antibody, catalog number NBP2-38109.	l	-
Concentration         Please see the vial label for concentration. If unlisted please contact technical services.           Storage         Store at -20C, Avoid freeze-thaw cycles.           Preservative         No Preservative           Purity         >80% by SDS-PAGE and Coomassie blue staining           Buffer         PBS and 1M Urea, pH 7.4.           Target Molecular Weight         21 kDa           Product Description         A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human BTBD1.           Source:         E. coli           Amino Acid Sequence: SSLGPLLPLQREPLYNWQATKASLKERFAFL           Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)           This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial production is strety prohibited. Please contact technical support if you have any questions.           Gene ID         53339           Gene Symbol         BTBD1           Species         Human           Product Application Details         Antibody Competition 10 - 100 molar excess           Applications         Antibody Competition 10 - 100 molar excess           Application Notes         This recombinant antigen is only intended to be used as a blocking agent to confirm antibdody specificity with the corresponding antibody, catalog number	Product Information	
services.         Storage       Store at -20C. Avoid freeze-thaw cycles.         Preservative       No Preservative         Purity       >80% by SDS-PAGE and Coomassie blue staining         Buffer       PBS and 1M Urea, pH 7.4.
