#### NBP2-38541PEP

Importin alpha 3/KPNA4 Recombinant Protein Antigen

Product Information       Unit Size       0.1 ml         Concentration       Please see the vial label for concentration. If unlisted please contact technical services.         Storage       Store at -20C. Avoid freeze-thaw cycles.         Preservative       No Preservative         Purity       >80% by SDS-PAGE and Coomassie blue staining         Buffer       PBS and 1M Urea, pH 7.4.         Target Molecular Weight       21 kDa         Product Description       A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human KPNA4.         Source: E. coli       Amino Acid Sequence: KRRNVPHEDICEDSDIDGDYRVQNTSLEAIVQ         Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)       This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial production is striptococcal Protein G)         Gene ID       3840         Gene Symbol       KPNA4         Species       Human         Product Application Details         Application Notes       Antibody Competition 10 - 100 molar excess         Application Notes       This recombinant antigen is only intended to be used as a blocking agent to confirm antigen yschilt with the corresponding antibody, catalog number NBP2-328541.         tis purified by IMAC chromatography, and the expected concentration i		5
