SOX10 Antibody (SPM607) [Alexa Fluor® 488]

Product Information Unit Size 0.1 ml Concentration Please see the vial label for concentration. If unlisted please contact technical services. Storage Store at 4C in the dark. Clonality Moncolonal Clone SPM607 Preservative 0.05% Sodium Azide Isotype IgG2b Kappa Conjugate Alexa Fluor 488 Purity Protein A or G purified Buffer 50mM Sodium Borate Product Description Mouse Gene ID 6663 Gene Symbol SOX10 Species Human Marker Melanoma Marker Specificity/Sensitivity Recognizes a protein of -55kDa, identified as SOX10. This monoclonal antibody is highly specific and does not cross-react with other members of the SOX-tfamily. SOX genes comprise a family of genes that are related to the mamilian sex-determining gene SRY. These genes similarly contain sequences shat encode for the HMG-box domain, which is responsible for the sequence-specific DNA-binding activity. SOX-10 is a sensitive marker of melanoma, including conventional, spindled, and desmoplastic subtypes. It is expressed by metastatic melanoma and relations and nodal caspular nevus in sentinel lymph nodes, but not by other lymph node components such as dendrinic cells, which usually express S100 protein. Comm

Notes	Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad, CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.	
Product Application Details		
Applications	Western Blot, Flow Cytometry, Immunocytochemistry/ Immunofluorescence, Immunohistochemistry, Immunohistochemistry-Paraffin, CyTOF-ready, Immunofluorescence	
Recommended Dilutions	Western Blot, Flow Cytometry, Immunohistochemistry, Immunocytochemistry/ Immunofluorescence, Immunohistochemistry-Paraffin, Immunofluorescence, CyTOF-ready	

Optimal dilution of this antibody should be experimentally determined.
