#### NBP2-48826PEP

p38 beta/MAPK11 Recombinant Protein Antigen

Product Information       Unit Size       0.1 ml         Concentration       Please see the vial label for concentration. If unlisted please contact technical services.         Storage       Store at -20C. Avoid freeze-thaw cycles.         Preservative       No Preservative         Purity       >80% by SDS-PAGE and Coomassie blue staining         Buffer       PDS and 1M Urea, pH 7.4.         Target Molecular Weight       23 kDa         Product Description       A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human p38 beta/MAPK11.         Source: <i>E. coli</i> Amino Acid Sequence:         DVIDQLKRIMEVVOTPSPEVLAKISSEHARTYIQSLPPMPQKDLSSIFRGA         Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)         This product is Intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial protection streptococcal Protein G)         Gene ID       5600         Gene Symbol       MAPK11         Species       Human         Product Application Details       Antibody Competition         Applications       Antibody Scompetition 10 - 100 molar excess         Application Notes       This recombinant antigen is only intended to be used as a blocking agent to confirm antibody specificity with the corresponding antibody, catalog numb	•		
Concentration         Please see the vial label for concentration. If unlisted please contact technical services.           Storage         Store at -20C. Avoid freeze-thaw cycles.
