c-Fos Antibody (2H2) [Alexa Fluor® 488]

Storage Store at 4C in the dark. Clonality Monoclonal Clone 2H2 Preservative 0.05% Sodium Azide Isotype IgG1 Conjugate Alexa Fluor 488 Purity Affinity purified Buffer 50mM Sodium Borate Product Description Host Mouse Gene ID 2353 Gene Symbol FOS Species Human, Mouse, Rat Reactivity Notes Rat reactivity reported in scientific literature (PMID:33091429). Immunogen This c-Fos Antibody (2H2) was developed against full length recombinant he c-Fos protein expressed in and purified from E. coli. [UniProt# P01100] Notes Alexa Fluor (R) products are provided under an intellectual property license Life Technologies Corporation. The purchased product conveys to the buyer the non-transferable right to use the purchased product and compone of the product only in research conducted by the buyer (whether the buyer is academic or for-profit entity). The sale of this product is expressly conditione the buyer not using the product or its components, or any materials made us the product or its components, or any materials made us the product or its components, or any materials made us the product or its components, or any materials made us the product or its components, or any materials made us the product or its components, or any materials made us the product or its components, or any materials made us the product or its components, or any materials made us the product or its components, or any materials made us the product or its components, or any materials made us the product or its components, or any materials made us the product or its components, or any materials made us the product or its components, or any materials made us the product or its components, or any materials made us the product or use or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For inform	o i oo i iiliboay (2112) [i iicka i iaoi	19 100]
Concentration Please see the vial label for concentration. If unlisted please contact technic services. Storage Store at 4C in the dark. Clonality Monoclonal Clone 2H2 Preservative 0.05% Sodium Azide Isotype IgG1 Conjugate Alexa Fluor 488 Purity Affinity purified Buffer 50mM Sodium Borate Product Description Host Mouse Gene ID 2353 Gene Symbol FOS Species Human, Mouse, Rat Reactivity Notes Rat reactivity reported in scientific literature (PMID:33091429). Immunogen This c-Fos Antibody (2H2) was developed against full length recombinant hunders can be approximated by the buyer for the product only in research conducted by the buyer (whether the buyer is academic or for-profit entity). The sale of this product and compone of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or adat in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For inform on purchasing a license to this product for purposes other than as described.	Product Information
