

# Product Datasheet

## Recombinant Mouse Aspartate Aminotransferase His Protein

**NBP2-52088-0.1mg**

Unit Size: 0.1 mg

Store at 4C short term. Aliquot and store at -20C long term. Avoid freeze-thaw cycles.

| <b>Details of Functionality</b>    | Specific activity is > 80 units/mg, and is defined as the amount of enzyme that converts 1.0 micromole of alpha-ketoglutarate to L-Glutamate per minute at pH 8.0 at 25C.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Product Application Details</b> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
