### NBP2-54339AF488

Serpin A3/alpha 1-Antichymotrypsin Antibody (AACT/1451) [Alexa Fluor® 488]

Product Information     Unit Size   100 ul     Concentration   Please see the vial label for concentration. If unisted please contact technical services.     Storage   Store at 4C in the dark.     Clonality   Monoclonal     Clone   AACT/1451     Preservative   0.05% Sodium Azide     Isotype   IgG1     Conjugate   Alexa Fluor 488     Purity   Protein A or G purified     Buffer   50mM Sodium Borate     Product Description   12     Gene ID   12     Gene Symbol   SERPINA3     Species   Human     Marker   Histiocytoma Marker     Specificity/Sensitivity   It recognizes a protein of 65-76kDa, which is identified antichymotrypsin (AACT), AACT is a plasma protease inhibitor synthesized in the liver as a single glycopeptide chain. In human, the normal serum level of AACT is about one-tenth that of their concentrations in plasma increase in response to trauma, surgery and infection. Elevated levels of AACT are widely, but not universally, reported in the cerebrospinal fluid and plasma of AD patients. Prostate-specific antigen (PSA) and its SDS-stable complex with AACT are in widespread use as markers of the diagnosis of prostate cancer. AACT deficiency may also be a possible cause of chronic liver disease. AACT antibody reacts with histiccytes and histocytics an

Notes	Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad, CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.
Product Application Details	
Applications	Immunohistochemistry, Immunohistochemistry-Paraffin, CyTOF-ready
<b>Recommended Dilutions</b>	Immunohistochemistry, Immunohistochemistry-Paraffin, CyTOF-ready
Application Notes	Optimal dilution of this antibody should be experimentally determined.
