NBP2-59183

eGFP Antibody

Product Information

Unit Size	50 ug
Concentration	Please see the vial label for concentration. If unlisted please contact technical services.
Storage	Store at -20C. Avoid freeze-thaw cycles.
Clonality	Polyclonal
Preservative	0.05% Sodium Azide and 0.05% ProClin 300
Isotype	IgG
Purity	Affinity purified
Buffer	PBS

Product Description

Host	Goat
Species	Non-species specific
Immunogen	The exact immunogen is proprietary information.

Product Application Details

Applications	Immunocytochemistry/ Immunofluorescence, Immunofluorescence
Recommended Dilutions	Immunocytochemistry/ Immunofluorescence 1:800, Immunofluorescence 1:800

Images

Immunofluorescence: eGFP Antibody [NBP2-59183] - A mitotic human HeLa cell, stably expressing a GFP-CENP-A fusion protein, was fixed with 4% formaldehyde and processed for immunofluorescence using the antibody against EGFP, diluted 1:800, and a monoclonal antibody against HEC1, followed by a CY2-labeled anti-goat and a CY3-labeled anti-mouse antibody, respectively. DNA was visualized using Hoechst staining. Images of the cell were taken with a Deltavision microscope. The images shown in Figure represent a projection of approximately 30 0.2 um optical sections.
