|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b> | Novus Biologicals Rabbit WDR61 Antibody - BSA Free (NBP2-59231) is a polyclonal antibody validated for use in WB and ChIP. All Novus Biologicals antibodies are covered by our 100% guarantee. |
| <b>Host</b>        | Rabbit                                                                                                                                                                                         |
| <b>Gene ID</b>     | 80349                                                                                                                                                                                          |
| <b>Gene Symbol</b> | SKIC8                                                                                                                                                                                          |
| <b>Species</b>     | Human, Drosophila                                                                                                                                                                              |
| <b>Immunogen</b>   | The exact immunogen is proprietary information.                                                                                                                                                |

**Product Application Details**

|                              |                                                                  |
|------------------------------|------------------------------------------------------------------|
| <b>Applications</b>          | Western Blot, Chromatin Immunoprecipitation (ChIP)               |
| <b>Recommended Dilutions</b> | Western Blot 1:1000, Chromatin Immunoprecipitation (ChIP) 1-5 ug |

**Images**

Western Blot: WDR61 Antibody [NBP2-59231] - Western blot was performed on nuclear extract from HeLa cells (lane 1), Drosophila adult whole cell extracts (lane 2), and the purified human PAF complex (lane 3) (Figure A) or on nuclear extracts from HeLa cells (HeLa NE, 20 ug) (Figure B), using the antibody against SKI8 diluted 1:1,000. The location of the protein is indicated on the right, the marker (kDa) is shown on the left.
