NBP2-59232**RUNX1T1/ETO Antibody****Product Information**

Unit Size	100 ul
Concentration	Please see the vial label for concentration. If unlisted please contact technical services.
Storage	Store at -20C. Avoid freeze-thaw cycles.
Clonality	Polyclonal
Preservative	0.05% Sodium Azide
Isotype	IgG
Purity	Whole Antiserum
Buffer	Serum

Product Description

Host	Rabbit
Gene Symbol	RUNX1T1
Species	Human
Immunogen	The exact immunogen is proprietary information.

Product Application Details

Applications	ELISA, Chromatin Immunoprecipitation (ChIP), Chromatin Immunoprecipitation Sequencing
Recommended Dilutions	ELISA 1:100, Chromatin Immunoprecipitation (ChIP) 4 uL/IP, Chromatin Immunoprecipitation Sequencing

Images

Chromatin Immunoprecipitation: RUNX1T1/ETO Antibody [NBP2-59232]
 - ChIP assays were performed using SKNO-1 cells, the antibody against ETO and optimized primer pairs for qPCR. Sheared chromatin from 1.25 million cells and 4 uL of antibody were used per ChIP experiment. QPCR was performed using primers specific for the FUT7, NFE2, OGG1 and VEGF genes. Figure shows the occupancy, calculated as the ratio + control/background for which the H2B gene was used.

ELISA: RUNX1T1/ETO Antibody [NBP2-59232] - To determine the titer of the antibody, an ELISA was performed using a serial dilution of the antibody directed against human ETO. The plates were coated with the peptides used for immunization of the rabbit. By plotting the absorbance against the antibody dilution, the titer of the antibody was estimated to be 1:1,300.
