AMN0002**Amintra (R) Nickel Magnetic Affinity Resin**

Product Information	
Unit Size	2 ml
Concentration	Please see the protocols for proper use of this product. If no protocol is available, contact technical services for assistance.
Storage	Store at 4C. Do not freeze.
Product Description	
Description	Amintra Nickel Magnetic resin is typically useful in purifying small quantity low concentration histidine-tagged proteins. For example, when 10 – 50 ul of resin is required for protein purification, it is difficult to handle such small quantities in columns. Amintra Nickel Magnetic resins can be easily processed with the aid of a magnet. The liquid / solid separation required in each purification step (e.g. equilibration, binding, washing and elution) is readily achieved with the aid of a magnet (e.g. magnetic stirring bar or other commercial magnetic devices)
Notes	This product is manufactured by Expedeon Inc. and distributed by Novus Biologicals.
