NB600-1520DL594

Clathrin light chain Antibody (CON.1) [DyLight 594]

Product Information	
Unit Size	0.1 ml
Concentration	Please see the vial label for concentration. If unlisted please contact technical services.
Storage	Store at 4C in the dark.
Clonality	Monoclonal
Clone	CON.1
Preservative	0.05% Sodium Azide
Isotype	IgG2b
Conjugate	DyLight 594
Purity	Protein A or G purified
Buffer	50mM Sodium Borate
Product Description	
Host	Mouse
Gene ID	1211
Gene Symbol	CLTA
Species	Human, Mouse, Rat, Bovine
Reactivity Notes	Cross-reacts <i>S. cerevisiae</i> . Not yet tested in other species. Please note that this antibody is reactive to Mouse and derived from the same host, Mouse. Additional Mouse on Mouse blocking steps may be required for IHC and ICC experiments. Please contact Technical Support for more information.
Specificity/Sensitivity	Monoclonal Anti-Clathrin Light Chain reacts specifically with the clathrin light chain. The epitope recognized by the antibody resides within amino acids 23-44 of bovine clathrin light chains, LCa and LCb. This region is not involved in heavy chain binding, and is completely conserved in all mammals. The product is useful in immunoblotting 2-4 (two doublets at 25-36 kDa, a doublet at approximately 56 kDa, and possibly also additional lower and higher molecular weight bands), immunoprecipitation, immunocytochemistry (4% paraformaldehyde- 0.5% Triton X-100 fixation), and immunoaffinity purification. Cross-reactivity has been observed with human, bovine, rat, mouse, and yeast.
Immunogen	Synthetic peptide, corresponding to amino acids 23-44 of Cow Clathrin Light Chain.
Notes	DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.
Product Application Details	
Applications	Western Blot
Recommended Dilutions	Western Blot
Application Notes	Optimal dilution of this antibody should be experimentally determined.
