DOI 10
P2H3
0.05% Sodium Azide
IgG1
Allophycocyanin/Cy7
Protein A or G purified
PBS
Mouse
6401
SELE
Human
The immunogen for this antibody was CD62E.
Flow Cytometry
Flow Cytometry
Optimal dilution of this antibody should be experimentally determined. For optimal results using our Tandem dyes, please avoid prolonged exposure to light or extreme temperature fluctuations. These can lead to irreversible degradation or decoupling. When staining intracellular targets, specific attention to the fixation and permeabilization steps in your flow protocol may be required. Please contact our technical support team at technical@novusbio.com if you have any questions.
