ADAM22 Antibody (S46-30) [Alexa Fluor® 405]

| Product Information |                                                                                             |
|---------------------|---------------------------------------------------------------------------------------------|
| Unit Size           | 0.1 ml                                                                                      |
| Concentration       | Please see the vial label for concentration. If unlisted please contact technical services. |
| Storage             | Store at 4C in the dark.                                                                    |
| Clonality           | Monoclonal                                                                                  |
| Clone               | S46-30                                                                                      |
| Preservative        | 0.05% Sodium Azide                                                                          |
| Isotype             | IgG2b                                                                                       |
| Conjugate           | Alexa Fluor 405                                                                             |
| Purity              | Protein G purified                                                                          |
| Buffer              | 50mM Sodium Borate                                                                          |

| Product Description     |                                                                              |
|-------------------------|------------------------------------------------------------------------------|
| Host                    | Mouse                                                                        |
| Gene ID                 | 53616                                                                        |
| Gene Symbol             | ADAM22                                                                       |
| Species                 | Human, Mouse, Rat                                                            |
| Reactivity Notes        | Based on homology, It's predicted to detect Human and Rat.                   |
| Specificity/Sensitivity | Detects the cytoplasmic domain of ADAM22 approx 90kDa. Weak human detection. |
| Immunogen               | Fusion protein amino acids 757-857 (cytoplasmic region) of mouse ADAM22      |

| Product Application Details |                                                                            |
|-----------------------------|----------------------------------------------------------------------------|
| Applications                | Western Blot, Immunocytochemistry/Immunofluorescence, Immunohistochemistry |
| Recommended Dilutions       | Western Blot, Immunohistochemistry, Immunocytochemistry/Immunofluorescence |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.     |
