#### NBP2-72131AF647

LIN7B Antibody (OTI1C9) [Alexa Fluor® 647]

under catalog numbers PK-2200-NB and MP-2400-NB. Please contact Technic Support if you have any questions.         Immunogen       Full length recombinant protein of human LIN7B (NP_071448) produced in HEK293T cells.         Notes       Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned to the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For informatio on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad, CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.			
Concentration         Please see the vial label for concentration. If unlisted please contact technical services.           Storage         Store at 4C in the dark.           Clonality         Monoclonal           Clone         OTI1C9           Preservative         0.05% Sodium Azide           Isotype         IgG1           Conjugate         Alexa Fluor 647           Purity         Immunogen affinity purified           Buffer         50mM Sodium Borate           Product Description         Mouse           Gene ID         64130           Gene Symbol         LIN7B           Species         Human, Mouse, Rat           Reactivity Notes         Please note that this antibody is reactive to Mouse and derived from the same host. Mouse. Mouse-On-Mouse blocking reagent may be needed for IHC and ICC experiments to reduce high background signal. You can find these reagent under catalog numbers PK-2200-NB and MP-2400-NB. Please contact Technic Support if you have any questions.           Immunogen         Full length recombinant protein of human LIN7B (NP_071448) produced in HEK23T cells.
