| Species                                | Human, Mouse, Rat                                                                                                                                                                                                                                                                                                                               |
| Reactivity Notes                       | Please note that this antibody is reactive to Mouse and derived from the same host, Mouse. Mouse-On-Mouse blocking reagent may be needed for IHC and ICC experiments to reduce high background signal. You can find these reagents under catalog numbers PK-2200-NB and MP-2400-NB. Please contact Technical Support if you have any questions. |
| Immunogen                              | Recombinant protein fragment corresponding to amino acids 104-471 of human MMP-13 (NP_002418) produced in HEK293T cells.                                                                                                                                                                                                                        |
